## REASONS FOR ALLOWANCE

### ***Election/Restrictions***

1. Applicant's election without traverse of the species of an electrostatic recording medium having at least one photoconductive material layer in Paper No. 5 is acknowledged.
2. Claims 1, 4-6, 9-11, 14-16, 19-22, and 25-27 are generic and allowable. Accordingly, the restriction requirement as to the encompassed species is hereby withdrawn and claims 3, 8, 13, 18, and 24, directed to the species of stimulable phosphor layer are no longer withdrawn from consideration since all of the claims to this species depend from or otherwise include each of the limitations of an allowed generic claim.

In view of the above noted withdrawal of the restriction requirement as to the linked species, applicant(s) are advised that if any claim(s) depending from or including all the limitations of the allowable generic linking claim(s) be presented in a continuation or divisional application, such claims may be subject to provisional statutory and/or nonstatutory double patenting rejections over the claims of the instant application. Once a restriction requirement is withdrawn, the provisions of 35 U.S.C. 121 are no longer applicable. See *In re Ziegler*, 44 F.2d 1211, 1215, 170 USPQ 129, 131-32 (CCPA 1971). See also MPEP § 804.01.

### ***Drawings***

3. The drawings were received on 13 April 2004. These drawings are acceptable.

***Reasons for Allowance***

4. The following is an examiner's statement of reasons for allowance: the instant application is deemed to be directed to an nonobvious improvement over the invention patented in US Patent 6,310,358. The improvements comprise in combination with other recited elements: (a) an alarm means as recited in independent claim 1 (and dependent claims 2-5); (b) a movement inhibiting means as recited in independent claim 6 (and dependent claims 7-10); (c) that the line reading light source scans the recording medium with the line reading light beam in a direction substantially perpendicular to said predetermined direction in which the image read-out means moving means moves the image read-out means as recited in independent claim 11 (and dependent claims 12-15); (d) a movement direction limiting means as recited in independent claim 16 (and dependent claims 17-20); and (e) a movement limiting means as recited in independent claim 21 (and dependent claims 22-27);

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
